

# Efficiency for your IT!

Get security for your IT projects  
Reduce cost with an automated IT discovery

## JDisc Discovery - the state-of-the-art inventory solution for your IT!

With JDisc Discovery, you get a complete overview of your IT environment at any given time. Saves time and money with your IT Asset management and operational processes, while at the same time minimizing risks for your IT projects!

### Your benefits at a glance:

- Operational in only 5 minutes
- Fast results, since no agent installation is required on target systems
- Discovers up to 1500 devices per hour
- Minimum configuration efforts for small companies and maximum flexibility for large enterprises
- Ideal for heterogeneous environments including Unix and Windows computers, routers and switches, and many other device types
- Always up-to-date records
- All information at one glance
- Intuitive user interface
- Adapts to your company's structure
- Open data base structures for simple data exchange

# JDisc Discovery Capabilities

## Discovery

- Take inventory of your network without installing proprietary agents
- Scan computers running Windows, Linux, IBM AIX, HP-UX, Sun Solaris and Mac OS X
- JDisc Discovery is not limited to certain manufacturers or types of devices
- Determine detailed hardware information such as model, manufacturer, serial number, disks, processors, memory modules, video adapters etc.
- JDisc Discovery displays installed software, patches, drivers and services in addition to operating system version and patch level
- Identify Oracle data base servers as well as the active database instances
- JDisc Discovery detects and displays the relationship between virtual systems and physical hosts running VMware, Microsoft HyperV, Sun Solaris zones, HP Integrity Virtual Machines, Xen or Oracle VM Server
- Discover product ids and license keys for many Microsoft applications
- Organize your IT related documents such as support contracts, user manuals, or operating instructions

## Reporting

- More than 20 standard reports show device details, IP networks, Active Directory objects and Windows domains
- Create your own reports with JDisc Discovery's custom reporting
- Export reports in Microsoft Excel or CSV format
- Restrict reports to device groups

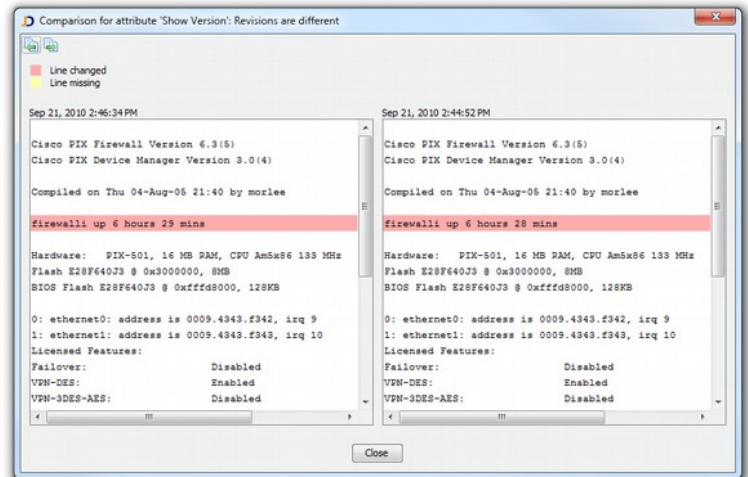

Name	IP Address	Manufacturer	Model	Type	OS Version
LabServer-1	12.231.154.46	Lenovo	ThinkCentre 431	Desktop	Microsoft Windows XP Professional

Server-20	192.168.178.16	Samsung	SyncMaster	Monitor	

## Scalability

- Create an inventory with JDisc Discovery of up to 36000 devices per day
- Our flexible and efficient password administration scales for small to enterprise size companies
- The integrated SQL data base stores all your data reliably and efficiently

## Customization Options

- Create your own custom reports
- Define your own custom attributes and either edit them manually or collect them by executing system commands or your own scripts
- Collect files from Windows and Unix computers
- Collect the output from system commands
- Execute your own scripts and store the output

- Keep a history of collected information and compare it with previous revisions

## Scheduling

- Discovery scans can be scheduled and executed automatically
- Select different ranges for networks, time and frequency of the scans
- Backup your database on a regular basis

## Support / Maintenance / Upgrades

- We provide custom support via email and telephone hotline.
- We offer consulting and training on request.
- All software updates are included in a support contract.
- Free support during the evaluation phase.

## Pricing

- **Perpetual license:** Purchase a perpetual license if you wish to use JDisc Discovery permanently. The price depends on the number of devices.
- **Project license:** Acquire a project license if you wish to use JDisc Discovery only for the duration of a project. The minimum duration is one week. Pricing depends on license duration (number of weeks) and number of devices.
- **Annual subscription:** Buy an annual subscription if you wish to use the product for one or several years. Pricing depends on the number of devices.
